

**"Veerle is highly conscientious, motivated and organised, showing ambition. She performs very well."**

## Lär känna Veerle

Veerle är född 2007 och kommer från Holland. Hon kommer i augusti 2025 och stannar under ett läsår. Intressen är bl. a tennis, musik (spelar piano), kreativa aktiviteter, sällskapsspel, shopping, bakning och matlagning. Hennes favoritämnen i skolan är matematik och biologi. Veerle föredrar vegetarisk kost.

Dear Host Family, Hi there! My name is Veerle, and I'm thrilled about the possibility of spending time with you in Sweden. I wanted to share a bit about myself and explain why I think this exchange program will be such a wonderful experience for both of us. I'm currently a student who enjoys a variety of activities. I play the piano, which is one of my biggest passions. Music is a big part of my life, and I love every moment I get to spend playing and discovering new pieces. I also play tennis, which keeps me active and is a lot of fun. Both of these hobbies are important to me, and I'm excited about the chance to share them with you. I would love to try new sports/ activities as well on my exchange year.

Academically, I try do well in school, but I also believe it's important to balance studying with having fun. I think learning is most effective when you're enjoying yourself, and I try to bring this positive attitude into everything I do. On weekends, I have a part-time job at a bakery. I really enjoy working there and find it rewarding to help people find the perfect pastry. I like to bake at home by myself or with friends, it's always great to see people's reactions when they enjoy what I've baked. I'd be excited to share some of my baking with you if you're interested! Being an only child has taught me the value of strong friendships and meaningful connections. I love spending time with my friends and making the most of our time together. One of my favorite activities is playing board games and other social games with friends and family. I find it's a fantastic way to have fun, bond, and make lasting memories. I'd be happy to bring this love of games into your home and enjoy some fun game nights with you! I also love learning about new cultures. I've made pen pals friends from different countries, and it's been amazing to exchange experiences and cultures with them.

I've visited Sweden before and loved it—the beautiful landscapes and unique culture really stood out to me. I chose Sweden for this exchange because it's in Europe but offers a very different climate and way of life compared to where I am now. I'm excited about this program because it will give me the chance to experience life in Sweden up close. I'm excited to learn about Swedish customs and traditions and to become a part of your daily life. I hope to bring some of my own interests into your home, like playing the piano, talking about my culture, enjoying game nights, and sharing some of my baking. I'm also happy to help out around the house and get involved in family activities. Thank you so much for considering me. I'm really looking forward to the possibility of joining your family and creating wonderful memories together.

Best wishes,

Veerle
