Dear Host Family,

My name is Marco, I'm 16 and I'm from Italy. I am very happy to have the opportunity to introduce myself and tell you something about me, because I hope that this letter will help you to know me better and understand if I can be the right match for you. I am an open-minded, cheerful and very curious person, and my friends say that I'm also very funny and creative! I love learning new things and living new experiences. I have a great passion for acrobatic dance and roller skating, which I have been practicing for several years. These are sports that allow me to express myself through movement, and they have taught me discipline, dedication and elegance. I also love going out with friends, shopping and fashion, I've inherited this last one from my mom. I like to bake desserts, even if I admit that they don't always turn out as I would like! but I enjoy trying and experimenting.

My life in Italy is full of activities and important people. I live with my mother, with whom I have a great relationship, but I go to my father's every weekend or, sometimes, even during the week. They always support me in my passions and dreams. This is why I love them, because even with some uncertainty or difficulty, they manage to understand my aspirations and are always ready to listen to my ideas or opinions. They also always come to support me during skating competitions or dance recitals. An important part of my family are my grandparents and my cousins, with whom I laugh and joke every day and who have taught me so many things, they are the first ones with whom I share all my dreams and desires (like becoming an Exchange Student)!

I want to live this experience because I believe it will help me grow as a person and become more independent and responsible. I will also learn a new language that is totally different from the ones I am used to hearing or studying, and the Swedish school system is one of the best! I am excited about the idea of immersing myself in a new culture, making international friends and experiencing a way of studying different from mine at the moment. I chose your country because I am fascinated by your culture, your green landscapes, language and lifestyle. I don't know too much about Sweden, but I am sure it will be enchanting! I want to learn about your traditions, taste your cuisine and see up close the landscapes that I have always seen in photos. I am also very interested in discovering how it is to live in a family different from mine and learn to integrate. I would like to offer my host family my energy, my enthusiasm and my desire to learn. I would like to share my Italian culture with you, maybe by cooking some typical dishes together or teaching you a few words in Italian. I hope we can create beautiful memories together and become part of your family. Thank you for reading my letter. I hope to meet you soon and live this beautiful adventure together!

Best regards, Marco

THANK YOU!
