

"Eben is hardworking, accountable and eager to learn."

Lär känna Eben

Eben är född 2008 och kommer från Finland. Hon kommer i augusti 2025 och stannar under en termin. Intressen är bl. a teckna/måla, gymträning, skriva och utomhusaktiviteter (särskilt skidåkning, vandring, fiske). Hennes favoritämnen skolan är finska och filosofi.

Hej! Jag är en 16 år gammal gymnasie elev från Finland, och jag är exalterad att komma till Sverige! Jag har studerat svenska 4 år, men jag kan inte talar svenska så bra. That is one of the reasons that I wanted to join the exchange student program. I would like to learn to speak Swedish fluently, and would be super great to get friends from Sweden. I am also very interested in learning more about life in Sweden, since we are neighbour countries. I have heard that there are some of cultural differences between Finland and the other nordics, even though we are geographically close. For example people in Sweden are likely to be more extroverted than in Finland. Or maybe these are just old stereotypes?

Jag är intresserad av konst, och på fritiden jag ritar och målar. I am writing a book, and I often draw my characters. Because of my hobbies of writing and character creating, I have started to be interested in medieval life, and I have been to a medieval event once. I love listening to many different genres of music, varying from black metal to classical music. I really love when the songs have a lot of things going on. I have many favorite bands: Rotting Christ, Sigh, Amorphis. And some non-metal bands and artists too: The Amazing Devil, AURORA, Rabbitology and others. I am very interested in starting to sing and make music, I just don't know how since I can't play any instrument very well. Jag älskar naturen även om, jag bor i stan. When I buy my own house, I want there to be a forest right next to it so I could go there to calm down and reunite with nature. I also really like animals, and I have two gerbils at home. My favorite animals are goats, possums, rats and cats. I once took care of a cat when the owners were on vacation, and it was super fun even though I did not get much sleep. My dream life would not have many things going on. I would just be making my art, enjoying time with my friends and family and life away from the city. I like collecting things I find from nature. I have stones, skulls, dried flowers and other things. Jag ser mig själv som en vänlig och öppen person. I want everyone to be able to express their creativity and identity the way they want, and I am not one to judge someone else's way to live. And I wish to be respected as well. I would prefer masculine terms to be used for me. I usually talk a lot, but I am sometimes also very quiet. Usually that is because my social battery is on 0%. I enjoy discussing topics like politics, religion and ethics. I have a lot of questions about everything. Sometimes I can be unintentionally noisy, but I know how to behave in important (and less important) situations. I also enjoy spending time with elderly people, because they are wise and I can have deep conversations with them. I don't really watch TV, but I read. I read classic literature and right now I'm reading Dracula. With my host family I would like to do art and enjoy walks in nature. Usually my day goes like this: I wake up and go to brush my teeth. Then I go to eat breakfast, I like eating ryebread with butter and cheese. I look at my phone for a while, check all the notifications and my schedule for the day. Then I go to school. After I come home I usually eat something and go to my room to do my homework. There I stay for the rest of the day doing whatever I feel like doing, unless I go to gym or to see my friends. Usually I make art or write. Sometimes I do crafts or reading, or listen to my CD's. With my friends I listen to music and sometimes go to gigs. I have many internet friends in many different countries, and I text them often. Art is one thing most of us have in common, whether it be music or drawing.

Jag ser fram emot att träffa er!

Eben
