Dear future family,

My name is Arik and I am 15 years old. I am a really active person.

I like going out a lot and also to do workouts in the park I live nearby.

I live together with my mom, dad and my two sisters named Kara and Jula they are 11 and 7 years old.

What I also like doing in my freetime, is to meet my best friend. I know him since 1 grade and I like to play Football with him, which is what we usually do when we meet.

And of course I do kickboxing- i have been doing it for three years and I really like it!

I want to attend the swedish program because I want to experience cultural differences in school and culture.

I also want to attend it to enjoy the nature of Sweden.

The host family should choose me because I am a funny and kind person. Another reason why I am a good choice, is because my english skills are very good and I am in the progress of learning Swedish so we could communicate very well.

I also like to cook, which means I could cook some german meals for the host family. In my family I am used to help in the kitchen, washing dishes, cooking ect.-so I can do this also in my Swedish family. I would hope to learn more about the Swedish culture and I would like learn more Swedish.

I am looking forward to my stay and my Swedish family.

Best regards

Arik
